**Housing Society Fully Supports “Operation Building Bright”**

The Hong Kong Housing Society (Housing Society) is most pleased to implement the “Operation Building Bright” campaign jointly with the Development Bureau and the Urban Renewal Authority, and will make the \$150 million funding provision as required.

Besides, Housing Society will employ additional staff including professional and technical staff to supervise the works and other staff to manage, co-ordinate and support the campaign.

Housing Society Chairman Mr Yeung Ka-sing said, “Operation Building Bright will not only create jobs for the industry, but will also effectively encourage owners of old buildings to make maintenance arrangements as soon as possible. This will enhance the overall living quality and safety in Hong Kong. The Housing Society will give its full support to make the campaign most effective.”
