1. General

The Hong Kong Housing Society (the "Housing Society") was incorporated on 18th May 1951 under the Hong Kong Housing Society Incorporation Ordinance. The address of its registered office and principal place of business is 29/F, World Trade Centre, 280 Gloucester Road, Causeway Bay, Hong Kong.

The principal activities of the Housing Society are property sales, leasing, management and financing, which are all conducted in Hong Kong.

The financial statements are presented in Hong Kong dollars which is also the functional currency of the Housing Society.

2. Application of New and Revised Hong Kong Financial Reporting Standards ("HKFRSs")

Up to the date of approval of these financial statements for issue, the Hong Kong Institute of Certified Public Accountants ("HKICPA") has issued a number of new and revised Standards, Amendments and Interpretations which are either effective for annual periods beginning on 1st April 2009 or in issue but not yet effective. The impact of these HKFRSs are discussed below:

HKFRSs effective for annual periods beginning on 1st April 2009

The Housing Society has adopted all of the HKFRSs that are relevant to its operations. Among these HKFRSs, the followings had been early adopted in prior years.

HKAS 23 (Revised) Borrowing Costs

1. 概述

香港房屋協會(房屋協會)乃根據香港 房屋協會法團條例於一九五一年五月 十八日註冊成立,其註冊辦事處及主要 辦公地點是位於香港銅鑼灣告士打道 二百八十號世貿中心二十九樓。

房屋協會的主要業務為樓宇出售、租 賃、管理及融資。所有業務均在香港進 行。

本財務報表以港幣列示,港幣亦為房屋 協會之功能貨幣。

應用新訂及經修訂香港財務報告準 則(「HKFRSs」)

截至本財務報告批准發放日,在香港會計師公會新頒佈的新或經修訂準則、修訂本及詮釋(「HKFRSs」)中,一部分已於二零零九年四月一日開始之年度期間生效,其餘則仍未生效。有關這些HKFRSs的影響詳情如下:

於二零零九年四月一日開始之年度期間 生效的HKFRSs

凡與房屋協會業務有關的HKFRSs,房 屋協會都已全部採納,下列的更已於前 年度提早採納。

2. Application of New and Revised Hong Kong Financial Reporting Standards ("HKFRSs") (Continued)

HKFRSs effective for annual periods beginning on 1st April 2009 (Continued)

The major impact of the adoption of the other HKFRSs during the current financial year which had not been early adopted in prior years is as follows:

(i) Amendments to HKFRS 7 Financial Instruments: Disclosures

The amendments to HKFRS 7 expand the disclosures required in relation to fair value measurements and liquidity risk. In particular, the amendment requires disclosure of fair value measurements by level of a hierarchy. The Housing Society has not presented comparative information for the expanded disclosures in accordance with the transitional provision set out in the amendments.

(ii) Amendments to HKAS 20 Accounting for Government Grants and Disclosure of Government Assistance

As part of Improvements to HKFRSs (2008), HKAS 20 has been amended to require government loans at below market interest rates to be recognised and measured in accordance with HKAS 39 Financial Instruments: Recognition and Measurement. Specifically, the amendment requires government subsidised loans to be measured at fair value on initial recognition and the benefit derived from the below market interest, measured as the difference between the fair value of the loans on initial recognition and the proceeds received, to be accounted for as government grants in accordance with HKAS 20.

In accordance with the relevant transitional provisions, the Housing Society is required to apply the requirement prospectively to government loans received on or after 1st April 2009. The amendments to HKAS 20 did not have impact on the financial statements as the Housing Society did not receive any government loan during the financial year.

2. 應用新訂及經修訂香港財務報告準 則(「HKFRSs」)(續)

於二零零九年四月一日開始之年度期間 生效的HKFRSs(續)

在本財政年度,其他沒有於前年度提早 採納的HKFRSs的主要影響如下:

(i) 香港財務報告準則第7號「金融工具-披露」(修訂)

香港財務報告準則第7號的修訂加強有關公允價值計量及流動資金風險之披露。特別是,這修訂規定按公允價值計量層級水平披露公平值計量。按此修訂的過渡條文,房屋協會無須列示有關披露的比較資料。

(ii) 香港會計準則第20號「政府補助金 及政府援助披露」(修訂)

二零零八年頒佈之香港財務報告準則之改進包括香港會計準則第20號之修訂本,規定低於市場利率的政府貸款須按香港會計準則第39號「財務工具:確認及計量」確認及計量。特別是,這修訂規定政計量。特別是,這修訂規定政行價值計量,其因低於市場利率配時份值計量,其因低於市場利率認時的利益(即貸款於最初確認時,以公行價值及收取收入之差),當作政府補助金按香港會計準則第20號的規定入賬。

根據此修訂的過渡條文,房屋協會 只須就於二零零九年四月一日或 以後所獲得的資助貸款使用有關修 訂。由於在本年度內,房屋協會沒 有收取任何政府貸款,香港會計準 則第20號(修訂)並無對本財務報 表帶來重大影響。

- 8 Effective for annual periods beginning on or after 1st January 2013

In view that the Housing Society have substantial investments in financial instruments and prepaid lease payments, the effects of those related HKFRS amendments are further discussed below:

HKFRS 9 Financial Instruments introduces new requirements for the classification and measurement of financial assets and will be effective from 1 January 2013, with earlier application permitted. The standard requires all recognised financial assets that are within the scope of HKAS 39 Financial Instruments: Recognition and Measurement to be measured at either amortised cost or fair value. Specifically, debt investments that (i) are held within a business model whose objective is to collect the contractual cash flows and (ii) have contractual cash flows that are solely payments of principal and interest on the principal outstanding, are generally measured at amortised cost. All other debt investments and equity investments are measured at fair value. The application of HKFRS 9 might affect the classification and measurement of the Housing Society's financial assets.

Notes to the Financial Statements 財務報表附註

2. Application of New and Revised Hong Kong Financial Reporting Standards ("HKFRSs") (Continued)

HKFRSs in issue but not yet effective (Continued)

As part of Improvements to HKFRSs issued in 2009, HKAS 17 Leases has been amended in relation to the classification of leasehold land. The amendments will be effective from 1st January 2010, with earlier application permitted. Before the amendments to HKAS 17, lessees were required to classify leasehold land under operating leases as prepaid lease payments in the statement of financial position. The amendments to HKAS 17 have removed such requirement. Instead, the amendments require the classification of leasehold land to be based on the general principles set out in HKAS 17, that are based on the extent to which risks and rewards incidental to ownership of a leased asset lie with the lessor or the lessee. The application of the amendments to HKAS 17 might affect the classification and measurement of the Housing Society's leasehold land.

3. Significant Accounting Policies

The financial statements have been prepared under the historical cost basis and in accordance with HKFRSs issued by the HKICPA, except for certain financial instruments which are stated at fair values, as explained in the accounting policies below.

Revenue recognition

Revenue is measured at fair value of the consideration received or receivable and represents amounts receivable for goods sold and services provided in the normal course of business, net of discounts.

Proceeds on sale of properties are recognised as revenue when the respective properties have been completed and delivered to the buyers. Payments received from purchasers prior to this stage are recorded as deposits on sale of properties under current liabilities.

2. 應用新訂及經修訂香港財務報告準 則(「HKFRSs」)(續)

已頒佈但未生效的HKFRSs(續)

3. 主要會計政策

除部分財務工具如下列會計政策所述以 公允價值列報外,本財務報表乃採用歷 史成本會計基準及根據香港會計師公會 所頒佈的香港財務報告準則編制。

收入確認

收入是以在正常交易下因出售貨物和提供服務,在扣除折扣後的已收取或可收取報酬的公允價值計算。

出售物業收入是以個別物業峻工及轉讓 給買家時入賬。於上述日期前所收取的 買方訂金則作為預售樓宇按金入賬並列 於流動負債內。

Notes to the Financial Statements 財務報表附註

3. Significant Accounting Policies (Continued)

Revenue recognition (Continued)

Where properties are sold under deferred terms with part of the sales proceeds not being receivable until after an interest-free period, the fair value of sales proceeds is determined by discounting the sales proceeds with deferred terms using the effective interest rate for other similar credit arrangements. The difference between the fair value and the nominal value of sales proceeds is initially recognised in net surplus/deficit in the statement of comprehensive income as a reduction of sales revenue and subsequently allocated to net surplus/deficit in the statement of comprehensive income as financial income using the effective interest rate over the interest-free period.

Rental income from investment properties under operating leases is recognised on a straight-line basis over the terms of the respective leases. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognised as an expense on a straight-line basis over the lease term.

Management fee income is recognised when services are rendered.

Interest income is accrued on a time basis by reference to the principal outstanding and at the effective interest rate applicable, which is the rate that exactly discounts the estimated future cash receipts through the expected life of the financial asset to that asset's net carrying amount on initial recognition.

Dividend income is recognised when the shareholders' rights to receive payment have been established.

Property and equipment and depreciation

Buildings, leasehold property and equipment held for use in the production or supply of goods or services, or for administrative purposes are stated at cost less subsequent accumulated depreciation and impairment losses.

The land and building elements of a lease of property are considered separately for the purposes of lease classification. Leasehold land of which the title is not expected to pass to the lessee by the end of the lease term is classified as an operating lease unless the lease payments cannot be allocated reliably between the land and building elements, in which case, the entire lease is classified as a leasehold property.

3. 主要會計政策(續)

收入確認(續)

當物業在遞延條件下出售,而部分樓款須在一段免息期後才可收取,物業收入的公允價值會以同類型貸款安排下延收的現率(即其實質利率)折現其附有遞延條款的銷售收入。有遞延條款的銷售收入。有遞延條款的銷售收入會首先減去公允價值與銷售收入面值的差額,才在全面收支表中的淨盈餘/虧損確認。

以營業租約從投資物業獲取的租金收入 乃按有關租約期以直線基準確認入賬。 於商討及安排租約時所產生的直接成本 會加入租賃資產內,及以直線基準於租 約期內分攤確認為費用入賬。

管理費收入於服務提供時確認入賬。

利息收入以時間為基準參照未償還本金 及實際利率確認入賬,而該實際利率乃 按最初確認時,該財務資產之預計可使 用年期,將估計未來現金收入完全貼現 至該資產之賬面淨值的利率。

股息收入乃在股東有權收取款項時予以 確認入賬。

物業及設備和折舊

持作生產或提供商品或服務或作行政用 途的物業、批租樓宇及設備乃按原值減 去其後累計折舊及減值損失列出。

物業的土地及樓宇成分在租約分類上是 分開考慮的。當批租土地的擁有權在租 約期滿時不會轉移給租户,此等土地租 約被分類為營運租約。但當租約的土地 及樓宇成分不能可靠地分割,該租約將 完全被列為批租樓宇。

3. Significant Accounting Policies (Continued)

Property and equipment and depreciation (Continued)

Depreciation is provided to write off the cost of items of property and equipment over the estimated useful lives, using the straight-line method at the following rates per annum:

Buildings and leasehold property

Over the estimated economic useful lives of forty years or the unexpired period of the land lease, whichever is the shorter

Equipment 20%–25%

An item of property and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the item) is included in net surplus/deficit in the statement of comprehensive income in the year in which the item is derecognised.

Operating leases

Prepaid lease payments under operating leases are charged to net surplus/deficit in the statement of comprehensive income on a straight-line basis over the term of the relevant lease. Benefits received and receivable as an incentive to enter into an operating lease are also spread on a straight-line basis over the lease term.

Investment properties

Investment properties are carried at cost less subsequent accumulated depreciation and impairment losses. Depreciation is provided over the estimated economic useful lives of 40 years or the unexpired period of the land lease, whichever is the shorter.

No depreciation is provided for investment property under redevelopment until such asset is ready for its intended use.

An investment property is derecognised upon disposal or when the investment property is permanently withdrawn from use or no future economic benefits are expected from its disposals. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the assets) is included in net surplus/deficit in the statement of comprehensive income in the year in which the item is derecognised.

3. 主要會計政策(續)

物業及設備和折舊(續)

折舊乃將物業及設備的價值以直線方法 按其估計可使用年期,依照下列折舊年 率撇除:

樓宇及 按估計可使用年期 批租樓宇 (即四十年)或該樓

宇的地契所剩餘年期二者的較短者

設備 百分之二十至二十五

當物業或設備被出售,或估計在其被使用時未能帶來經濟收益,該等物業及設備會被取消確認。在取消確認時所產生的溢利或虧損,即出售資產淨收入與資產所持價值的差額,於取消確認年度內在全面收支表的淨盈餘/虧損內確認入賬。

營業租約

在營業租約下的預付土地租賃開支是以 直線基準於有關租約期內分攤列於全面 收支表的淨盈餘/虧損內入賬。於制定 營業租約時所獲得的應收或已收利益亦 是以直線基準於有關租約期內分攤。

投資物業

投資物業乃按原值減去其後累計折舊及 減值損失列出。折舊乃按估計可使用年 期或地契剩餘年期二者的較短者來計 算。

除發展中的投資物業已達到可作其預計 用途外,這些物業是不提折舊。

當投資物業出售、永久不再使用或預期不會帶來經濟利益時,該投資物業會被取消確認。因取消確認而獲得的溢利或虧損(按該項資產的出售收入淨額及其賬面值的差額計算)會於取消確認年度的全面收支表的淨盈餘/虧損內入賬。

Properties under development for sale

Properties under development for sale in the ordinary course of business are stated at the lower of cost and net realisable value.

Housing inventories

Housing inventories represent completed properties held for sale and are stated at the lower of cost and net realisable value.

Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are capitalised as part of the cost of those assets. Capitalisation of such borrowing costs ceases when the assets are substantially ready for their intended use or sale. Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs capitalised.

All other borrowing costs are recognised as an expense in the period in which they are incurred.

Financial instruments

Financial assets and financial liabilities are recognised in the statement of financial position when the Housing Society becomes a party to the contractual provisions of the instrument. Financial assets and financial liabilities (other than loans from government) are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than "financial assets and financial liabilities at fair value through profit or loss") are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of "financial assets or financial liabilities at fair value through profit or loss" are recognised immediately as an expense in net surplus/deficit in the statement of comprehensive income.

Financial instruments (Continued)

(i) Loans and receivables

Loans and receivables which include loans receivable. account receivables and bank balances are subsequently measured at amortised cost using the effective interest method less any identified impairment losses. Appropriate allowances for estimated irrecoverable amounts are recognised in net surplus/deficit in statement of comprehensive income when there is objective evidence that the asset is impaired. The impairment recognised is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows discounted at the effective interest rate computed at initial recognition. Impairment losses are reversed in subsequent periods when an increase in the asset's recoverable amount can be related objectively to an event occurring after the impairment was recognised, subject to a restriction that the carrying amount of the asset at the date the impairment is reversed does not exceed what the amortised cost would have been had the impairment not been recognised.

(ii) Financial assets/liabilities at fair value through profit or loss

Financial assets/liabilities at fair value through profit or loss ("FVTPL") comprise (i) investment- related financial assets (including equity and debt securities, hedge fund and financial derivative assets) and (ii) investmentrelated financial liabilities (including financial derivative liabilities), which are classified as held for trading (see "investment related financial assets/liabilities" as described in Note 17). These financial assets/liabilities are recognised and derecognised on a trade date basis where the purchase or sale of an investment is under a contract whose terms require delivery/settlement of the investment within the timeframe established by the market concerned, and are measured at fair value. Realised gains and losses from the investment transactions, and unrealised gains and losses from changes in fair value at the end of the reporting period. are included in the net surplus/deficit in the statement of comprehensive income for the period. Until realisation, gains and losses may fluctuate subsequent to the end of the reporting period depending on market movements in investment prices and foreign exchange rates.

Financial instruments (Continued)

(iii) Financial liabilities other than loans from government

Financial liabilities (including accounts payables and accruals) other than loans from government are subsequently measured at amortised cost, using the effective interest method.

(iv) Financial guarantee contracts

A financial guarantee contract is a contract that requires the issuer to make specific payments to reimburse the holder for a loss it incurs because a specified debtor fails to make payment when due in accordance with the original or modified terms of a debt instrument. A financial guarantee contract issued by the Housing Society and not designated as at fair value through profit or loss is subsequently measured at the higher of: (i) the amount determined in accordance with HKAS 37 "Provisions, Contingent Liabilities and Contingent Assets"; and (ii) the amount initially recognised less, when appropriate, cumulative amortisation recognised in accordance with HKAS 18 "Revenue".

(v) Derecognition

Financial assets are derecognised when the rights to receive cash flows from the assets expire or, the financial assets are transferred and the Housing Society has transferred substantially all the risks and rewards of ownership of the financial assets. On derecognition of a financial asset, the difference between the asset's carrying amount and the sum of the consideration received is recognised in net surplus/deficit in the statement of comprehensive income.

Financial liabilities are removed from the Housing Society's statement of financial position when the obligation specified in the relevant contract is discharged or cancelled or expires. The difference between the carrying amount of the financial liability derecognised and the consideration paid, including any non-cash assets transferred or liabilities assumed, is recognised in net surplus/deficit in the statement of comprehensive income.

(v) 取消確認

若從資產收取現金流量之權利已到期,或財務資產已轉讓及房屋協會已將其於財務資產擁有權之絕大部分風險及回報轉移,則財務資產將被取消確認。於取消確認財務資產時,資產賬面值與已收代價之差額,將於全面收支表中的淨盈餘/虧損內確認。

當財務負債合約之特定責任獲解除、取消或到期,該負債會被取消確認及在房屋協會的財務狀況表中被刪除。取消確認之財務負債賬面值與已付代價之差額,包括任何非現金資產或負債承擔,乃於全面收支表中的淨盈餘/虧損內確認。

3. Significant Accounting Policies (Continued)

Impairment of assets

At the end of each reporting period, the Housing Society reviews the carrying amounts of its assets to determine whether there is any indication that those assets have suffered an impairment loss.

If the recoverable amount of an asset is estimated to be less than its carrying amount, the carrying amount of the asset is reduced to its recoverable amount. An impairment loss is recognised as an expense immediately.

An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount and the circumstances and events leading to the impairment cease to exist. Where an impairment loss subsequently reverses, the carrying amount of the asset is increased to the revised estimate of its recoverable amount, but the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset in prior years. A reversal of an impairment loss is recognised as income immediately.

Provisions

Provisions are recognised when the Housing Society has a present legal or constructive obligation as a result of past events, and it is probable that an outflow of resources will be required to settle that obligation, and a reliable estimate can be made. Provisions are measured at the management's best estimate of the expenditure required to settle the obligation at the end of the reporting period, and are discounted to present value where the effect is material.

Government grants and assistance

Government grants received or receivable after 1st April 2003 are recognised as income over the period necessary to match them with the related costs. Grants related to depreciable assets received or receivable after 1st April 2003 are presented as a deduction from the carrying amount of the relevant asset and are recognised as income over the useful lives of the assets by way of a reduced depreciation charge.

Government assistance relating to land obtained from the Government without a premium being charged are recorded by the Housing Society at a nominal amount.

3. 主要會計政策(續)

資產減值

於報告期末,房屋協會就其資產的賬面 值作出審查以決定該資產是否有減值損 失的現象。

如資產的估計可收回金額少於其賬面值,該資產的賬面值則會減至其可收回金額值,而減值損失亦立即當作費用確認。

當有關導致減值情況及事項終止出現,而可收回金額估計亦因而改變,減值損失會被撥回。當資產的減值損失期後須撥回,該資產的賬面值將會增加至其可收回金額的重估值,直至其賬面金額相等於未減值前的價值,該撥回的減值損失會當作收入確認。

準備

當過往的事項導致房屋協會須負法律或推定責任,而且日後有可能需要撥付資源償付有關責任所涉及之款項,在該款項能夠可靠地予以估計的情況下,該款項會提呈準備。準備是管理層於報告期末作出在償付有關責任所涉及之款項的最佳估計,當折現影響重大時,該款項將貼現至現值入賬。

政府補助金及援助

在二零零三年四月一日後收取或應收的 政府補助金,均按相關成本的配比在有 關期間內確認為收入。在二零零三年四 月一日後收取或應收的可折舊資產補助 金,則在有關資產的賬面值中減除,並 根據該資產使用年期用減少折舊的方法 確認為收入。

以零地價由政府批予房屋協會的土地補助是以象徵式金額記錄。

3. Significant Accounting Policies (Continued)

Government grants and assistance (Continued)

Loans from Government granted before 1st April 2009 at nil or low interest rate are initially measured at cost and subsequently measured at amortised cost using the contractual rate.

Foreign currencies

Transactions in currencies other than the functional currency of the Housing Society (foreign currencies) are initially recorded at the rates prevailing on the dates of the transactions. At the end of each reporting period, monetary items denominated in foreign currencies are retranslated at the rates prevailing on that date. Non-monetary items carried at fair value that are denominated in foreign currencies are retranslated at the rates prevailing on the date when the fair value was determined. Non-monetary items that are measured in terms of historical cost in a foreign currencies are not retranslated.

Exchange differences arising on the settlement of monetary items, and on the translation of monetary items, are recognised in the net surplus/deficit in the statement of comprehensive income in the period in which they arise.

Retirement benefit costs

Payments to Defined Contribution Retirement Benefit Scheme and Mandatory Provident Fund Scheme are charged as an expense when employees have rendered service entitling them to the contributions.

4. Capital Risk Management

The Housing Society's capital comprises primarily the surplus accumulated since its establishment and its objective when managing capital is to ensure that the Housing Society will be able to continue as a going concern so that it can continue to provide quality housing and services for the Hong Kong community.

Given that the Housing Society's funding is mainly raised internally, the policies on capital risk management are therefore focused on how to preserve the surplus funds in order to achieve the above capital management objective. Related policies on preserving the surplus funds are set out in Note 5.

外幣兑換

房屋協會的非功能貨幣交易最初是按交易日的匯率換算入賬。於每年報告期末,貨幣性項目以報告期末的匯率再換算,以公允價值列賬的非貨幣性項目, 其貨幣換算是以決定其公允價值日的匯率計算,而其他非貨幣性項目則以歷史成本列賬及無須重新再換算。

由貨幣性項目結帳時或因換算貨幣性項目所產生兑換差額,均於產生期內記入 全面收支表中的淨盈餘/虧損內。

退休保障成本

當職工因已提供服務而獲得「定額供款 退休保障計劃」或「強制性公積金計劃」 的供款,是以支出入賬。

4. 資本風險管理

房屋協會的資本主要是其自成立以來所 累積的盈餘。其資本管理的目的是要確 保房屋協會能持續經營並為香港社會提 供優質房屋及服務。

房屋協會的資金主要是由內部提供,因 此資本風險管理政策亦集中於如何為其 資金盈餘保值來達到上述資本管理的目 的。有關資金保值政策列於附註五內。

Details of the above financial instruments are disclosed in the respective notes. The risks associated with these financial instruments and the policies applied by the Housing Society to mitigate these risks are set out below. Management monitors these exposures to ensure appropriate measures are implemented in a timely and effective manner.

以上財務工具之詳情已於相關附註中作 出披露。該等財務工具之相關風險及減 輕此等風險之制度載列如下。管理層管 理及監察此等風險,以確保能即時及有 效地採取適當措施。

(i) Credit risk

The Housing Society is exposed to credit risk, which is the risk that a counterparty may default on its bank deposits, fixed income investments and accounts receivable or the Housing Society may be required to pay if the financial guarantee is called on. The Housing Society's maximum exposure to credit risk which will cause a financial loss to the Housing Society in the event of the counterparty's failure to perform their obligations at the end of the reporting period in relation to each class of recognised financial assets and the financial guarantees provided are the carrying amounts of those assets as stated in the statement of financial position and the amount of financial guarantee disclosed in Note 22(ii).

For bank deposits, the Housing Society limits its exposure by placing funds only with investment grade licensed banks as approved by Hong Kong Monetary Authority. To ensure there is no significant concentration of credit risk to a single counterparty, procedures are in place to ensure diversification and the bank deposits placed with each counterparty are subject to a maximum limit and this limit is monitored on an on-going basis and revised according to the counterparty's latest credit rating and financial information.

(i) 信貸風險

在限制銀行存款風險,房屋協會只存款於由香港金融管理局發牌的投資級別銀行。為確保在單一交易對手中並無過度集中的信貸風險,, 些程序已定立以確保分散投資一一 每一交易對手的存款量亦已設有上限,該上限亦定時就其交易對手的 最新信貸評級及財務資料作出檢討及修訂。

Notes to the Financial Statements 財務報表附註

5. Financial Risk Management Objectives and Policies (Continued)

(i) Credit risk (Continued)

For fixed income investments, the Housing Society reduces its exposure by investing in investment grades securities only. There are further restrictions on the holding limit of BBB rated bonds and corporate bonds. In addition, an overall credit rating of Aaa is maintained to ensure the fixed income portfolio is of high quality.

The Housing Society has no significant concentration of credit risk, with exposure spread over a number of counterparties.

(ii) Liquidity risk

Liquidity risk is the risk that the Housing Society is not able to meet its obligations and commitments as they fall due. All Housing Society's investments are kept sufficiently liquid and readily realisable to meet operation needs and any unexpected cash demands. In addition, the Housing Society also monitors the liquidity risk by performing cash flow analysis on a regular basis.

(iii) Market risk

Market risk is the risk of loss arising from the movement of foreign exchange rates, interest rates and market price of securities. The Housing Society is exposed to market risk through its investments in equities and fixed income investments.

Foreign exchange risk

The Housing Society's foreign currency positions arise mainly from its financial assets/liabilities denominated in currencies other than Hong Kong dollars and United States dollars. The exchange risk between Hong Kong dollars and United States dollars is considered insignificant since Hong Kong dollars are pegged to United States dollars.

The Housing Society is exposed to foreign currency risk primarily through its equity investments and fixed income investments which are managed by fund managers. Whilst fund managers would invest in global securities denominated in a basket of currencies, they are encouraged to hedge their foreign currency exposures to Hong Kong dollars or United States dollars in accordance with the strategic asset allocation.

5. 財務風險管理目標及政策(續)

(i) 信貸風險(續)

在固定收益組合投資方面,房屋協會只投資在投資級別的證券來減低其風險,在BBB評級債券及公司債券上更有進一步的限制。為確保固定收益組合投資質素,整體信貸評級亦會維持在Aaa級。

因房屋協會的信貸風險分散於眾多 交易對手中,所以風險並不集中。

(ii) 流通風險

流通風險是指房屋協會未能償付到 期清繳的責任及承擔的風險。所有 房屋協會的投資是會保持足夠的流 通性及能即時變現的,以配合營運 需要及償付非預期的現金需求。此 外,房屋協會亦定期編制現金流量 分析用來監控其流通風險。

(iii) 市場風險

市場風險是因外幣兑換價、利率及 證券入市價的變動所產生的損失。 房屋協會因透過股票及固定收益組 合投資而須面對此等市場風險。

外幣兑換風險

房屋協會的外幣持倉主要來自其非 港元及美元的外幣財務資產及財務 負債。而因港元及美元的兑換已是 掛鉤,所以兑換風險不大。

房屋協會面對的外幣兑換風險主要 是來自由其基金經理所投資的股票 及固定收益組合。基金經理投資一 籃子全球外幣證券時,會根據其資 產分配策略以對沖外幣風險。

5. Financial Risk Management Objectives and Policies (Continued)

(iii) Market risk (Continued)

Price risk

The Housing Society is subject to price risk on its investments. This risk is controlled and monitored by asset allocation limit.

Fair value interest rate risk

The Housing Society's exposure on fair value interest rate risk mainly arises from its fixed deposits and investment in fixed income investments (including financial derivatives classified under investments related financial assets/liabilities).

As the fixed deposits usually mature within 3 months, the exposure is considered not material. For fixed income investments, where necessary, fund managers will use interest rate swaps and other derivatives to manage the interest rate risk.

(iv) Sensitivity analysis on significant financial assets

The Housing Society uses the Risk Budgeting approach ("RBA") to measure sensitivity and manage the financial risks for its investments portfolio which comprises financial assets and liabilities held-for-trading, bank balances and other financial assets/liabilities at the end of the reporting period. The RBA reflects the interdependencies between interest rate risk, foreign exchange rate risk and equity price risk.

The RBA estimates the variability and the expectation of the returns over a given holding period for a specified confidence level. The Risk Budgeting methodology is a statistically defined, assumption based approach that takes into account market volatilities, historical views as well as risk diversification by recognising the correlations between products and markets. At the end of the reporting period, there was a 10% (2009: 10%) chance that the potential loss of the Housing Society's investments would exceed HK\$711 million (2009: HK\$658 million) over a one-year period. The number reflects the 90% probability that the loss on the investments during a one-year period will not exceed the aforesaid figures.

5. 財務風險管理目標及政策(續)

(iii) 市場風險(續)

入市價風險

房屋協會面對投資時的入市價風 險,此風險是由資產分配限額來監 控的。

公允值利率風險

房屋協會的公允值利率風險主要由 存放定期存款及投資固定收益組合 (包括在有關投資的財務資產/負 債內的金融衍生工具)所產生。

因定期存款通常在三個月內到期, 所以其風險不高。而固定收益組合 則由基金經理以利率掉期及其他衍 生工具來管理其利率風險。

(iv) 財務資產敏感度分析

房屋協會運用風險預算編制方法 (「RBA」)來計量敏感度及管理其包含持作買賣用途財務資產及財務負債、銀行結餘和其他財務資產及負債的投資組合之財務風險。RBA能反映利率、匯率及股票價格之相互依賴的風險關係。

Notes to the Financial Statements 財務報表附註

5. Financial Risk Management Objectives and Policies (Continued)

(iv) Sensitivity analysis on significant financial assets (Continued)

The RBA has limitations associated with assumptions employed. It is based on historical experience and forward looking judgement on various economic factors such as interest rates, foreign exchange rates and equity prices. This implies that the approach does not take into account of any sudden changes in market behaviour.

5. 財務風險管理目標及政策(續)

(iv) 財務資產敏感度分析(續)

RBA會因所用的假設而有所限制。 此等方法是以過去的經驗和對各種 經濟因素如利率、匯率及股票價格 在未來的展望的判斷為基礎,此方 法亦意味著其未能顧及在市場突變 時可能出現的情況。

13. Investment Properties (Continued)

Fair values

The Housing Society's investment properties are mainly rental estates built on land granted by the Government, and the Government has included in the land grant terms and conditions governing the sale and rental of the properties. The fair values of the properties cannot be reliably assessed because (i) the Government may or may not consider giving approval for the Housing Society to sell any or all of its rental estates; (ii) there are no comparable market transactions to provide references; and (iii) concessionary rents are charged to tenants of the public rental estates.

Impairment

When the markets have significant movements that would impact the recoverability of the amount invested in investment properties or when there are major rehabilitation/redevelopment works embarked to enhance the living environment of the investment properties, management would assess whether an impairment loss is necessary.

The impairment loss stated in this note was mainly for the rehabilitation works commencing during the past few years, of which the management believe that the cost of the rehabilitations cannot be fully recovered from future rental receipts. The recoverable amounts of the investment properties have been determined on the basis of their value in use using a discount rate reflecting the risk specific to the investment property.

13. 投資物業(續)

公允價值

房屋協會的投資物業主要是在政府批出的土地上興建的出租屋邨,而政府在批出土地時已加入限制此等物業出售及租賃的特定條文。這些投資物業的公允價值因以下因素而不能可靠地估計:(i)政府可能不會批准房屋協會出售其任何或全部出租物業;(ii)沒有可用作比較的市場交易;(iii)公共屋邨租客只須付出優惠租金。

減值

當市場的重大變動能影響投資在投資物業的資金的收回性,或為改善出租物業居住環境而作出的重大復修/重建工程時,管理層會評估是否須要作減值損失準備。

於上列所提的減值損失主要是為過往數 年著手的翻新工程作準備。管理層相信 工程成本將不能從租金中全部收回。投 資物業之可回收金額是按其實用價值及 可反映其特有風險之貼現率計算。

14. Loans Receivable

Loans receivable represents mainly the second mortgage loans granted to the flat buyers and unsecured loans granted to home owners under the Building Management and Maintenance Scheme. All the secured loans are secured by residential property.

14. 應收貸款

應收貸款主要是指為樓宇買家所提供的 第二按揭貸款,或在樓宇管理維修綜合 計劃中,為業主提供的免息無抵押貸 款。所有有抵押的貸款是以住宅物業作 押。

(in HK\$Million)	(港幣百萬元)	2010	2009
At 1st April Reversal Bad debts recovered	四月一日 撥回 壞賬收回	9.0 (1.6) (0.8)	11.7 (2.6) (0.1)
At 31st March	三月三十一日	6.6	9.0

Impairment of the above loans is assessed individually when any borrowers are unable to settle overdue installments for more than six months. At the end of the reporting period, the carrying amount of these individually assessed loans before individually determined to be impaired was HK\$4.7 million (2009: HK5.3 million) and impairment loss of the loans was HK\$4.7 million (2009: HK\$5.3 million).

Thereafter, if the Housing Society determines that no objective evidence of impairment exists for an individually assessed loans receivable, whether significant or not, it includes the asset in a group of loans receivable with similar credit risk characteristics with reference to borrowers' historical default in interest or principal payment and collectively assesses them for impairment.

At 31st March 2009 and 2010, the carrying values of loans that are past due but not impaired are insignificant. For loans that are neither past due nor impaired, their credit quality is considered good since majority of the loans are secured by residential properties and have good settlement history. During the year, there has been no significant change in the credit quality.

當借款人未能償還六個以上的定額還款時,該貸款的減值損失會被個別評估。於報告期末,被個別評估減值的貸款在減值前的賬面值為港幣四百七十萬元(二零零九年:港幣五百三十萬元(二零零九年:港幣五百三十萬元)。

其後,當房屋協會認定個別評估貸款並 無客觀減值證據,此等貸款(無論重大 與否)將與其他有相似信貸風險的貸款 歸類,其貸款的減值準備會按此類貸款 者過往在利息或本金拖欠情況作出綜合 評估。

於二零零九年及二零一零年三月三十一日,房屋協會並沒有重大過期還款而未減值的貸款。而沒有逾期還款或減值損失的貸款,可被視為良好信貸,因大部分的貸款是以住宅物業作抵押和有良好還款記錄。在本年度,該等貸款的信貸質素是沒有重大的轉變。

22. Provisions (Continued)

(i) Construction/rehabilitation work

Provision is made for remaining construction works to be carried out for the completed sale properties, and foreseeable loss on rehabilitation works for investment properties and revitalisation works for committed social projects. Related payments are expected to be incurred within the next three financial years.

(ii) Provision for financial guarantee

In relation to the sale of properties, the Housing Society has requested a number of mortgage banks to grant the purchasers mortgage loans up to above 70% of the price of the properties. Provision for claims in the event of default was therefore made to indemnify the banks for losses arising from the request. The guarantee period is 20 years.

At 31st March 2010, total contingent liabilities in respect of the guarantee are estimated to be approximately HK\$1,514.5 million (2009: HK\$1,531.7 million) which could be required to be settled on demand.

Based on expectations at the end of the reporting period, the carrying amount of the financial guarantee as at 31st March 2010 is subject to change depending on the probability of the counterparty claiming under the guarantee which is a function of the likelihood that the financial receivables held by the counterparty which are guaranteed suffer credit losses.

(iii) Building management/maintenance incentives

Under the Building Management and Maintenance Scheme, eligible applicants will be granted financial assistance when they satisfy certain criteria. Provision is made when the applications are approved. Related payments are expected to be made within next 24 months.

22. 準備(續)

(i) 建築及復修工程

建築及復修工程成本準備是為已出售物業的未完成工程部分或投資物業及回饋項目的活化工程預計的損失作出準備。大部分的支出預計會於其後的三個財政年度內發生。

(ii) 財務保證準備

房屋協會曾要求銀行為其出售物業 的買家批出樓價七成以上之按揭, 此安排令房屋協會須提撥準備以償 還銀行因壞賬而須承擔的損失。此 承擔期限為二十年。

於二零一零年三月三十一日, 估計有關或然負債為港幣 十五億一千四百五十萬元(二零零 九年:港幣十五億三千一百七十萬 元),並有即時清繳的可能。

根據於報告期末的估計,財務保證 於二零一零年三月三十一日的賬面 價值,是會因交易對手在這財務保 證中賦予的索償權的索償機會率而 改變,索償機會率取決於交易對手 因持有受保證的應收財務而導致的 信貸損失的可能性。

(iii) 樓宇管理及維修資助

樓宇管理及維修資助計劃為合資格 的申請人提供有關的財務資助,當 申請獲批核後,相關資助金額會作 撥備,並估計會於其後二十四個月 內支付。

25. Retirement Benefits Schemes

The Housing Society operates two defined contribution retirement benefits schemes, namely, Defined Contribution Retirement Benefit Scheme and Mandatory Provident Fund Scheme, for all qualifying employees. The assets of the schemes are held separately from those of the Housing Society in the funds under the control of trustees.

The retirement benefits cost charged to the statement of comprehensive income represents contribution payable to the funds by the Housing Society at rates specified in the rules of the schemes. Regarding the Defined Contribution Retirement Benefit Scheme, where there are employees who leave the scheme prior to vesting fully in the contributions, the forfeited employer's contributions are used either to reduce future contribution or to pay the trustee's administration charges or to distribute to members who are entitled to such distributions under the rules of the scheme.

25. 退休金褔利計劃

房屋協會為其合資格僱員提供兩個界定 供款退休金計劃,分別為「定額供款退 休保障計劃」及「強制性公積金計劃」。 該等計劃的資產與房屋協會的資產乃分 開持有,並存於由獨立信託人所管理的 基金內。

房屋協會按退休福利計劃所指定的比率計算應付退休供款,並全數列入全面收支表內。就「定額供款退休保障計劃」,倘僱員於全數達到享用退休福利前退出該計劃,被沒收僱主供款可用於減除房屋協會應付的未來供款、或支付信託人行政費用、或根據此計劃條款分配給參與此計劃的僱員。

26. Government Contribution and Assistance

(i) Concessionary land premiums

Since the incorporation of the Housing Society, a number of sites have been granted by the Government under lease terms to facilitate the provision of housing to low to middle income families or elderly. Depending on the nature of the land grant, special terms and conditions are incorporated in the Condition of Grant to restrict the user of the land and alienation of the property.

Subject to these special terms and conditions, sites developed for public rental housing purposes are granted at one-third of full market value; sites for building flats for sales to eligible families at concessionary prices are granted at half of full market value; sites for developing rural public housing and senior citizen residence are granted at nominal or nil premium.

At the end of the reporting period, total carrying value of the above lands including related acquisition costs was HK\$1,434.2 million (2009: HK\$1,524.6 million). Relevant costs were grouped under prepaid lease payments and housing inventories.

During the years of 2010 and 2009, no land premium was paid to the government.

(ii) Loans from Government

Some of the developments mentioned above were partly financed by loans from the government. Details of the loans are set out in Note 20.

26. 政府津貼及援助

(i) 優惠批地價格

自房屋協會成立以來,政府為要輔助提供房屋予低至中收入家庭和年長者,向房屋協會批出一批土地。視乎批地的性質,在地契的《批地條款》中加入了特別的期限和條款用以限制該些批地的使用者及其轉讓權。

受這些期限和條款的限制,用以興建公共出租房屋的批地是以全市場價值的三分之一批出;用以興建房屋並以優惠價格出售該等房屋予合資格家庭的批地是以全市場價值的二分之一批出;而用以興建郊區公共出租房屋及年長者住所的批地則以象徵性地價或零地價批出。

於報告期末,該批土地連有關購置成本的賬面價值為港幣十四億三千四百二十萬元(二零零九年:港幣十五億二千四百六十萬元)。相關的成本已列入於預付土地租賃開支及樓宇存貨。

於二零一零年及二零零九年,房屋 協會並沒有付地價予政府。

(ii) 政府貸款

上列其中一部分的發展項目是由政 府供應資金。貸款詳細列於附註 二十內。

For the purposes of monitoring segment performances and allocating resources between segments:

- Segment surplus/deficit is determined by aggregating income earned and expenditure incurred by each segment without allocation of corporate administrative expenses. This is the measure reported to the chief operating decision maker (i.e. Executive Committee) for the purposes of resource allocation and performance assessment.
- All assets are allocated to reportable segments other than office buildings and related prepaid lease payments for corporate administrative purposes.
- All liabilities are allocated to reportable segments other than accrual expenses for central administrative costs.

分部業績監控及其資源分配如下:

- 分部的盈虧乃以各分部的收支累計,企業管理費用未有分配在內。
 此亦是主要營運決策者(即執行委員會)用以分配資源及業績評估。
- 除寫字樓及有關預付土地租賃開支 是用作企業管理外,其他所有資產 都按須列報分部分配。
- 除與企業管理有關的應計費用外, 其他所有負債都按須列報分部分 配。
