Remarks

1. Tenants are responsible to bear all fit-out and alteration costs including costs of upgrading the electricity supply, pipes and drainage etc., which are for the exclusive enjoyment of the tenant's premises.
2. Owing to site restriction and building services design, some building services ductworks and/or pipeworks must be run inside the leased Premises, although such pipeworks/ ductworks are not exclusively for the respective Premises. Landlord reserves the right of entry for future maintenance of these services ductworks.
3. Any modification of drainage, electrical, plumbing and fire services installations have to be carried out by the Landlord's nominated/specialist contractor(s) or other qualified contractor(s) approved by the Landlord at Tenant's expenses.
4. Tenant shall be responsible for the installation, future repair and maintenance, or replacement of the MVAC. All indoor and outdoor MVAC equipment and accessories including refrigerant pipework, insulation and any written approved alterations and additions shall be remained at the Premises in proper repair and condition upon expiration or earlier termination of the Tenancy Agreement.
5. Tenant has to apply for its owned telephone, electricity and water meter.
6. All information contained in this section is subject to change without further notice. Tenant shall have no claim for loss, compensation or abatement of rent in respect of the changes in Landlord's provisions.
